

## Testimonials

“IREON members grow and prosper from the company they keep and the relationships they share”

---

IREON has helped educate me in both my personal and business life since joining the group. Champion Elevator and I personally have built many GREAT relationships with a number of the members who have helped generate leads and close jobs. The group has been very beneficial for our company and the friends we made along the way have been amazing!

Remember “it’s not the size of the group, it’s the quality of its members and their willingness to network and help each other out – THAT IS IREON!”

BIG Thank You to Steve for his ongoing support and guidance!

**Donald Gelestino**  
**President, Champion Elevator Corp.**

Since joining, Insperity has built fruitful relationships with several of the members that has opened new doors to opportunities for us. Overall our membership with IREON over the last year has been very beneficial for Insperity. Steve personally has helped us meet and add new contacts into our network. The “give and receive” aspect of the group is great and has helped the relationships made to continue to grow.

**Business Performance Advisor, Insperity**

Janover LLC is a relatively new member to the IREON family. I call it a family because the members support each other more like a family member would than a networking group. Our firm has received some referrals already and has even had the opportunity to host an event in our New York office. The meetings and monthly hour teleconference meetings are informative in terms of seeing what other members and their companies have been doing. The technical presentations are educational as well. We have been very happy with our experience with this special group and look forward to a long and prosperous relationship together.

NuZine joined the IREON Network 6 months ago and are having a great experience! Our fellow members are highly knowledgeable and we have received new business from some of the respected members. Our leader Steve Kirschner, is highly energetic and keeps the members motivated. The program is ideal for busy business owners looking to expand their network.

**CEO, NuZine**

# Spectorgroup

Spectorgroup joined the IREON Network only a few months ago. We have found our fellow colleagues in IREON to be trusting, knowledgeable in their space and overwhelming engaging. It's an ideal platform to build and expand our national industry network.
